**BOARD PRESENTATIONS**

A. Ms. Jo Ann Coombs

Ms. Coombs reiterated her concerns relating to the retaining wall and MetCom’s requirement to connect to the public water system. These were discussed at length at the October 8th, 2009, Regular Board meeting and are detailed within Minutes of that date. She suggested that a 6-month deferral to connect to the water system is an insignificant amount of time, and requested that further consideration be given to her case.

Ms. Meiser stated that MetCom was neither consulted nor informed prior to placement of the wall, and that the Commission did not participate in any negotiations that occurred between State Highway Administration (SHA) and Ms. Coombs. She added that relocation of either the wall or waterline is necessary, and that SHA has determined that it would be more economically feasible to relocate the wall. However, Ms Coombs remains dissatisfied with the proposed relocation. Commissioner Tudor noted at this point that MetCom does not appear to shoulder any liability as it did not cause, or compound the problem.
Following his remarks, Ms. Carol Ann Coombs and Ms. Graham supported Ms. Coombs statements relating to the Commission’s unjustifiable requirement to connect to the Chancellor’s Run Water Line.

Following Ms. Meiser’s assurance that MetCom engaged in the normal Public Hearing process prior to commencement of the project, the Board requested copies of documentation relating to: (1) names of property owners who were forwarded the original Project notification letter, (2) names of property owners informed by mail of Public Hearing(s) and, (3) correspondence informing property owners of completion date and deadline to connect.

Commissioner St. Clair stressed that the requirement to connect is mandated by the State and that the Commission is not permitted to waive connections. Ms. Meiser added that it is the Health Department’s responsibility to determine if a well that is not located on a rental property can continue to serve it.

At this point, Board of County Commissioner, Daniel H. Raley, addressed the Board on Ms. Coombs’ behalf, noting that her issues are both unique and complex. He complimented staff on a job well done, but requested that they apply some pressure on SHA to reconsider Ms. Coombs’ situation. He concluded that she has been caught in the middle of MetCom and SHA through no fault of her own, and suggested that the Commission has a moral responsibility to make an effort to champion her cause.

Ms. Carol Ann Coombs and Ms. Graham further detailed their specific situations, and complained of MetCom’s unacceptable communication with property owners. They were assured that the Board will further investigate this issue.

B. Mr. Henry Camaioni

Mr. Camaioni reviewed, at length, the three-page document which he subsequently provided to the Board; a copy of which is attached to the Minutes. The document highlights what he believes to be incomplete and inaccurate information provided to members of the Task Force; i.e. availability of sewer service for failing systems that could be served by the lines installed for St. George Island; inappropriate allocation of EDU’s to Wildewood; and the possible ethical dilemma created by the attorney for MetCom also being appointed as its Director.

In addition, he alleged that MetCom does not provide the Public Information Office with videotapes of each Board Meeting to be shown on the County Government’s
television channel. His comments were disputed by staff as being completely inaccurate.

Commissioner Barthelme stressed that in order for the Board to properly assist him, it would require more than just allegations, i.e. the names of people who are providing him with this information. Mr. Camaioni agreed to give the Board additional documentation to reinforce his case, and stated that he will also be providing the Task Force with similar information.

Mr. Camaioni left the meeting at 4:30 p.m. and the meeting briefly adjourned.

The meeting readjourned at 4:36 p.m.
