Mr. Canavan explained that staff has been analyzing the proposed text amendments and comments received during the open record period. He explained that LUGM has reached conclusion on a number of aspects of the proposal, and is now recommending a base density of 10 units per acre. The analysis involved balancing the economic and business concerns of bringing forward a residential development against agricultural preservation by the purchase of Transferable Development Rights (TDRS). Mr. Canavan explained
that staff is not recommending any changes to the commercial footprint requirements of the OBP.

Ms. King expressed a concern that ample information on the Revitalization Area and the relationship between the OBP and the DMX (Downtown Mixed Use Zone) has not been provided to the Planning Commission, and explained that she does not feel that she can make an informed decision on the proposed text amendment without this information. She asked that the Planning Commission have the opportunity to hear from both Ms. Finnacom and Mr. Canavan at the same meeting, to provide a clearer understanding of the possible impacts of this proposed amendment.

The Planning Commission made the decision to table the discussion until the requested information is received from staff.

DEVELOPMENT REVIEW

CCSP #03-132-006 – PEGG RUN TOWNHOMES
The applicant is requesting concept site plan approval for 37 townhome lots. The property contains 5.103 acres; is zoned Residential High Density (RH); and is located at 46400-46453 Munley Lane in Lexington Park, Maryland; Tax Map 43, Grid 21, Parcel 72.

Owner: Jim Munley
Agent: Jerry Nokleby, of Nokleby Surveying

Mr. Shire explained that this project was caught between the prior Zoning Ordinance (90-11) and the current Zoning Ordinance (Z02-01), and received concept approval from the Planning Commission under the prior Ordinance in April of 2002. Due to delays in obtaining building permits, the site plan approval expired. Because of changes in the required stream buffer between the two Ordinances, a variance was necessary to continue with the project under the current Zoning Ordinance. The applicant went to the Board of Appeals in November of 2004, and was successful in obtaining the necessary variance at that time.
Ms. King made a motion that having accepted the staff report, dated March 17, 2005, and having made a finding that the objectives of Section 60.5.3 of the St. Mary’s County Comprehensive Zoning Ordinance have been met, and noting that the referenced project has met all requirements for concept approval as a prerequisite for final site plan approval, the Planning Commission grant concept site plan approval, as requested. The motion was seconded by Mr. Barthelme and passed by a 6-0 vote.

**PSUB #03-120-042 – PEGG RUN TOWNHOMES**

The applicant is requesting preliminary subdivision approval for 37 townhouse lots. The property contains 5.103 acres; is zoned Residential High Density (RH); and is located at 46400-46453 Munley Lane in Lexington Park, Maryland; Tax Map 43, Grid 21, Parcel 72.

Owner: Jim Munley  
Agent: Jerry Nokleby, of Nokleby Surveying

Mr. Thompson made a motion that having accepted the staff report, dated March 17, 2005, and having made findings pursuant to Section 30.5.5 of the St. Mary’s County Subdivision Ordinance (Criteria for Approval of a Preliminary Plan), including adequate facilities as described in the Director’s Report in the file, the Planning Commission grant preliminary subdivision plan approval, as requested. The motion was seconded by Mr. Reeves and passed by a 6-0 vote.

**CCSP #05-120-004 – RANIERI RUN SUBDIVISION**

The applicant is requesting review of a concept site plan for a 112-lot subdivision, in order to proceed with an amendment to the Comprehensive Water and Sewerage Plan. The property contains 58.22 acres; is zoned Residential Low Density (RL); and is located on the west side of Willows Road, 0.6 miles north of its intersection with MD Route 5; Tax Map 51, Grid 22, Parcels 272 & 282.

Owner: Sturbridge Homes  
Agent: Larry Day, of Day Tech Engineering, Inc.

Ms. King asked if this development would impact Hilton Run, and expressed concern with water runoff issues at some developments in the area and a desire to make certain that this development does not contribute to the problem. Mr. Shire explained that this development would back up to Hilton Run, but that the zoning district does require 50% open space. Mr. Day explained that a more extensive buffer is being planned for this development than is required.

Mr. Thompson made a motion that having accepted the staff report, dated March 18, 2005; and having made a finding that the referenced
project meets concept plan requirements to proceed with a Comprehensive Water and Sewer amendment to change the water and sewer categories from S-6D and W-6D to S-3D and W-3D; and noting that the subdivision plan must return to the Planning Commission for preliminary approval; the Planning Commission grant concept plan approval, as requested. The motion was seconded by Mr. Chase and passed by a 6-0 vote.

**CCSP #05-132-002 – HOWLIN CONCRETE**
The applicant is requesting review of a concept site plan for a concrete batch plant. The property contains 3.145 acres; is zoned Industrial (I), Airport Environs Overlay (AE); and is located at 43850 Airport View Drive in Hollywood, Maryland; Tax Map 34, Grid 1, Parcel 548.

Owner: Charles Pessango
Agent: John B. Norris, Jr., of NG&O Engineering, Inc.

Mr. Norris explained that the applicant is not planning to shut down their existing plant at this time. They are moving their primary operation to provide more easy access and maneuverability for trucks using the facility.

Mr. Barthelme made a motion that having accepted the staff report, dated March 18, 2005, and having made a finding that the objectives of Section 60.5.3 of the St. Mary’s County Comprehensive Zoning Ordinance have been met, and noting that the referenced project has met all requirements for concept approval, the Planning Commission grant concept site plan approval, as requested. The motion was seconded by Mr. Chase and passed by a 6-0 vote.

**DISCUSSION**

**TEXT AMENDMENT – MANDATORY CONNECTION TO COMMUNITY WATER/S SEWER**
Amendment to the Comprehensive Zoning Ordinance; Sections 70.8, sewerage; and 70.9, water.

Mr. Canavan explained that currently any property for development, subject to either a subdivision or site plan, located within the Lexington Park Development District is required to hook up to public sewer, regardless of the size of the development. The same property, if it is within 1,750 linear feet of the infrastructure for public water, is also required to hook up to the public system. He explained that a common sense approach is needed to allow these small developments to proceed, on a case by case basis; with the caveat that when water and sewer becomes located at a reasonable distance, hook up must be made to the public infrastructure. A final draft form of the text amendment will be brought back to the Planning Commission for consideration at a future meeting.
RECOMMENDATION ON CAPITAL IMPROVEMENT PROGRAM

Following discussion concerning project modifications from a work session conducted on March 25, 2005, the Planning Commission voted to recommend the Capital Improvement Program to the Board of County Commissioners as presented to them, including the modifications presented during the meeting on March 28, 2005.
