APPROVAL PROCESS

THIS APPLICATION SHOULD BE MADE AT LEAST TWO (2) MONTH SPRIOR TO THE DATE OF THE EVENT.

The Sponsor contacts the St. Mary's County Department of Public Works & Transportation (hereinafter referred to as the "County") to obtain the permit form/approval. The County Highways Manager will assist the applicant in identifying other agencies and contact persons, if applicable, which must also review the permit before final approval/denial is granted. This will be done for all events impacting County facilities.

The Event Sponsor's representative completes the permit form and provides:

- A suitably scaled map outlining route(s) affected;
- A descriptive traffic control plan; and
- An executed Release and Waiver of Liability Form.

The Traffic Control Plan should address, in specifics, how the Event Sponsor will minimize impact on or alter normal traffic flow; provide for safety needs of event participants; and implement the logistics/policing arrangements. A route narrative explaining the direction of travel, affected lanes, etc. must accompany this permit form. For racing events, the presence of law enforcement officers or acceptable traffic barricades are required at each traffic signal or stop controlled intersection.

Obtain approvals of enforcement agencies and submit entire form to the County for approval. The County will review, approve and distribute copies of same.

If the event is acceptable based on County guidelines, the County will coordinate with the St. Mary's County Sheriff's Office and the Maryland State Police to obtain their concurrence with routing and/or closure and the Traffic Control Plan. If the Traffic Control Plan submitted is unacceptable, the Event Sponsor will be informed as soon as possible and given the opportunity to re-draft the Plan.

The County will notify the Event Sponsor's representative and police agencies of official approval/denial at least one (1) month prior to the date of the event.

If the Event requires a Temporary Use Permit from the Department of Land Use & Growth Management, a separate application and approval is required.

Upon receipt of an approved permit, the Event Sponsor's representative will advise the general public and local emergency services of pertinent event details.

2. Providing and placing clearly distinguished recycling containers (by color or signage) adjacent to each trash container at the event.....except where already provided on site;
3. Providing all labor, equipment, and associated recycling costs necessary to carry out recycling at the special event;
