NAS PAX River Issues Weekend Noise Advisory

Communities surrounding the naval air station are advised that noise-generating testing events are scheduled to take place Saturday, February 4, 2012. Low-level jet aircraft flight operations are required in order to conduct calibration testing with ground based equipment. Test events are scheduled to run between 10:00 a.m. and 1:00 p.m. Residents may notice increased noise levels due to these operations.

As with all operations, NAS Patuxent River takes precautions to lessen the impact of testing activities on the community. For more information call 1-866-819-9028.
