Citizen Awareness on Structural Damages February 8, 2010

St. Mary's County Government is working with local businesses that have realized damages to structures after this weekend's winter storm. Citizens and businesses are urged to do a visual assessment of structures to look for roof damages, leaks and other structural damages that could lead to more serious issues such as roof or structure collapses.

The Mechanicsville Post Office (28948 Three Notch Road) did have a partial collapse to one side. The Land Use and Growth Management Department has conducted a damage assessment and the post office will be closed until further notice.

If your business or home does have damages that raise concern, please contact Land Use and Growth Management at 301-475-4200 Ext. 1500 to make a report.
