### **Statement Regarding Buzz's Marina and Campground**

The Board of County Commissioners has released the following statement:

The County Commissioners recognize the importance of supporting tourism; the cross flow of customer and patron business is not uncommon and help our local small businesses survive and thrive. Buzz's Marina & Campground, as well as the many other marinas of the County are valuable assets to be carefully managed with the rights of all property owners.

Today, the County Commissioners' staff and owners of Buzz's Marina & Campground have agreed to work towards amicable resolution of matters regarding the marina and campground through the processes in place for converting the use to an approved, conditional use; a process that will include further public hearings at which all will be invited to express their opinions.

Mr. Mike Henderson said "We appreciate the support of all of our many friends, patrons and businesses and welcome the opportunity to work with the County for the benefit of all. None of this would have been possible without our friends and supporters and the early intervention of a number of County Commissioners; all of whom we owe a sincere debt of gratitude."

Buzz's Marina & Campground, a recipient of the Maryland "Clean Marina" award, will continue operating as it has while the process of converting the use to a conditional use moves forward.
